Professional Summary

BTL1-certified SOC analyst with hands-on experience in alert triage, log analysis, and incident investigation across endpoint and network data. Ranked Top 150 globally and Top 5 in India on CyberDefenders. Comfortable working with SIEM tools, forensic data, and threat intelligence to identify and investigate security incidents.

Core Skills

SOC Operations: Alert triage, incident response, threat detection, MITRE ATT&CK mapping

SIEM & Logs: Splunk, Elastic Stack, Windows Event Logs, Sysmon, EvtxECmd, DeepBlueCLI

Digital Forensics: Volatility, Autopsy, FTK Imager, MemProcFS, artifact analysis, timelines

Network Analysis: Wireshark, PCAP analysis, TCP/IP, DNS, HTTP

Threat Intelligence: IOC extraction, correlation, MISP, phishing analysis

Programming: Python (Flask), SQL, C

Hands-On Experience

CyberDefenders (SOC Analyst Tier 1)

Top 150 Global — Top 5 India

- Investigated 50+ security incidents using logs, memory dumps, and network captures across Splunk, Elastic, Volatility, and Wireshark.
- Detected techniques such as Kerberoasting, persistence, and data exfiltration by correlating multiple data sources.
- Mapped attacker activity to MITRE ATT&CK and built clear investigation timelines.
- Identified indicators of compromise and documented findings in structured reports.

Projects

BeMyScribe Platform – Secure Backend

Jun 2025

- Built role-based access control (RBAC) to enforce least-privilege access across user roles.
- Added input validation and secure data handling to reduce injection risks.
- Implemented audit logging to track user actions and improve traceability.
- Developed APIs using Python (Flask) with controlled access to external services.

Certifications

- **Blue Team Level 1 (BTL1)** – Completed (2026)
- Google Cybersecurity Professional Certificate – Coursera
- Cisco Networking Basics – Cisco Networking Academy

Education

SRM Institute of Science and Technology

2023 – 2027

B.Tech, Computer Science (Cybersecurity)

CGPA: 9.13 / 10.0

Writeups / Publications

- Published 5 investigation writeups on Medium covering DFIR, malware analysis, and network investigations.
